SUMMARY

Frontend engineer with over 10 years of experience in tech and 3+ years specializing in building performant, scalable web applications using React, Next.js, TypeScript, and Tailwind CSS. I bring strong backend experience with Firebase, Supabase, and Node.js, along with hands-on knowledge of deploying and optimizing apps using AWS services like S3 and CloudFront. I focus on delivering clean, responsive interfaces backed by solid architecture — building production-ready applications that are fast, secure, and user-centric.

EXPERIENCE

Blue Clouds, Riyadh, KSA — Full Stack Developer

May 2024 – Present

- Developed scalable full-stack web applications using React, Next.js, Firebase, and Tailwind CSS.
- Built and deployed a ZATCA-compliant POS system for electronic invoicing.
- Implemented customer loyalty and analytics features integrated with the admin dashboard.
- Collaborated with product and design teams to deliver new features in weekly sprints.

Alsokkaria Group, Riyadh, KSA — IT Manager

Feb 2016- May 2024

- Led ERP/CRM implementation across departments to digitize business workflows.
- Built internal tools to support operations, reporting, and inventory tracking.
- Managed cross-functional IT projects and ensured infrastructure uptime across branches.
- Acted as a bridge between technical teams and executive leadership.

Herfy Food Services, Riyadh, KSA — IT Support Technician

Mar 2011 - Jan 2016

- Supported 150+ branches, call centers, and HQ through system integration and IT support.
- Helped design and roll out infrastructure in new factory locations.
- Resolved critical network and hardware issues under tight SLAs.
